

UJVAL THAKOR

Backend Developer | Python . Django . REST APIs . AI/ML

Email: ujvalthakor14@gmail.com | Phone: +91 9104502128 | Location: Surat, Gujarat, India

GitHub: <https://github.com/ujvalthakor> | LinkedIn: <https://linkedin.com/in/ujvalthakor>

EDUCATION

Bachelor of Technology in Computer Engineering (2022 - 2026)

Core Coursework: Data Structures, RDBMS, OOP, Computer Networks, Operating Systems

CORE TECHNICAL SKILLS

Languages & Frameworks: Python 3.x, Django, Django REST Framework, FastAPI

Databases & Caching: PostgreSQL, MySQL, Redis, SQLite

AI & Vision: OpenCV, Computer Vision, YOLO, LLM API Integration, RAG

DevOps & Tools: Docker, Docker Compose, Git, Linux, Bash, Nginx

FEATURED PROJECTS

1. BeautyCare AI - Skincare Diagnostics API Platform (2026)

Engineered Django REST API system for automated skin analysis.

Structured non-blocking caching with Redis, minimizing repeated inference latency.

2. Fabric Fault Detection & Inspection System (2025)

Industrial computer vision defect detection system for textile conveyor inspection.

Decoupled frame capture from image processing using multithreading and queues in Python.

ENGINEERING EXPERIENCE

Backend & AI Developer | Independent Projects (2024 - Present)

- Designed scalable RESTful APIs with Django and PostgreSQL.
- Implemented real-time computer vision quality control tools.
